

LS Quarry acknowledges the importance of protecting the environment in a sustainable manner to help reduce any damage or impact its operations and activities might have.

LS Quarry is committed to ensuring this in a sustainable, financial and technically feasible approach through the development, implementation and maintenance of an Environmental Management System.

As part of this Environmental Management System, LS Quarry's focus will be to:

- Comply with relevant Australian Federal and State Government environmental legislation, regulations and policies;
- Implement and maintain a structured Environmental Management System consistent with ISO14001:2015.
- Consider sustainability issues in the planning and management of all LS Quarry operations and activities across the business;
- Prevent pollution; minimise waste and greenhouse gas emissions; and minimise our consumption of energy, water and natural resources; through both technical and staff based initiatives;
- Implement procurement procedures that adhere to the principles of the Environmental Policy;
- Communicate this Environmental Policy and our Environmental Management System to staff, contractors, consultants and volunteers; and
- Strive for continual improvement of environmental performance through the monitoring of our achievements on a regular basis and reporting to relevant stakeholders.

This policy will be communicated to all stakeholders and made available to the public online at <https://www.lsquarry.com.au/>.
